

SUNRISE at SUMMIT – Night&Day Hike

Night ascent to the Sveto brdo summit.

Dawn on the top.

Morning in the gorge.

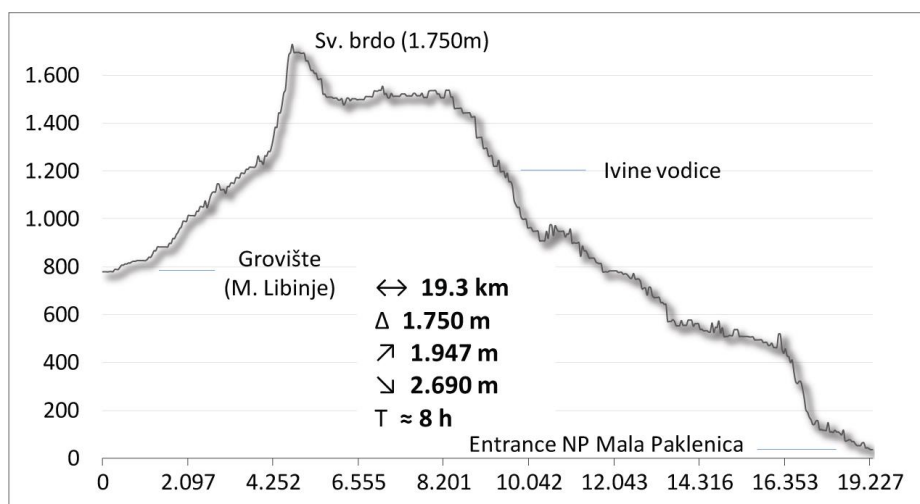

DESCRIPTION

Start in the evening hours. After one hour transfer by terrain vehicles we come to the **Libinje** plateau at 780 m.a.s.l. Well after nightfall, we start our ascent to the second highest peak of Velebit – **Sveto Brdo** (1750 m a.s.l.). After approximately 3 hours walk we come to the summit.

Enjoy a calm night beneath spectacular star sky and shot some memorable photos of Zadar city and islands lights in distance. Rest and take a short nap. Soon you'll be enchanted by the sunrise.

After capturing sunrise shines above Velebit's peaks and sea in front, we head on toward **Mala Paklenica** gorge. After 5-6 hours downhill walk we come to the Park reception 2 where our tour ends. Very attractive, somewhere even steep path through the gorge of Mala Paklenica is definitely worth seeing.

ELEVATION PROFILE

FACT SHEET
